SECURITY (Good practices)

Each registered user is required to read through, understand the security policy for scrpm website <http://scrpm.ucoz.com/> before being authorised to access the website. This is to ensure that users or members play an active role in ensuring security of data at their level

2.1 Policies and Practices as follows

As a good security practice, you are strongly advised to: Keep your password confidential!

- **Avoid** sharing or divulging your Password to anyone. This includes any person who may appear to represent or work for SCRPM. Our administrator do not request for your password at any time.
- **Avoid** choosing a Password that is easily anticipated by a third party, like your NRIC number, telephone number, date of birth, etc. You should select a unique Password to make it difficult for anyone to anticipate.
- **Avoid** writing down or "saving" your Password on your browser or any other software. Memorizes your Password.
- If you suspect your Password may have been compromised, change your Password **immediately**
- Always log out your Internet session by clicking on the "logout" button whenever you leave your computer, even for a short while. Do not simply close the browser window when you wish to end the Web Application session.

***Tips:** Your password is what tells the system that you are who you say you are. Because your password is like a key to your account, you need to safeguard it. Anyone who has your password can pose as you. Therefore, you may be held responsible for someone else's actions, if they are able to get your password. Do not record your passwords down, memorise them!*

Creating new thread

Thread name:

Thread description:

Message text:

WEEK 2012 is organised by the Association of Clinical Registrars Malaysia (ACRM) and CREST EvendZ Sdn Bhd

According to Dr Goh, Director of CRC, the conference will address issues and challenges faced by Malaysia and its neighbours in the Association of Southeast Asian Nations (ASEAN). In view of the global nature of clinical trials, NCCR 2012 would be an excellent platform to work towards a multi-nation research collaboration

Thus I would suggest if SCRPM could embark on a study and present during NCCR. Please do forward the suitable topic for SCRPM to consider...
